UTILITIES ARUBA^{NV}

About Utilities Aruba N.V.

Utilities Aruba N.V. (U.A) is the holding company of Water- en Energiebedrijf Aruba N.V. (W.E.B), which is responsible for the power generation and water production in Aruba, and Electriciteit-Maatschappij Aruba (N.V. ELMAR), which is responsible for the energy distribution and commercialization in Aruba. The subsidiaries of U.A provide electricity to approximately 45.000 customers on the island, with nearly 550 employees and a net worth value of US\$ 328.500.000.

Objectives

Aruba aims to achieving zero Greenhouse gases (GHG) by 2050 in compliance with the Paris Agreement. In other words, Aruba aims to fully rely on renewable energy as the main energy source for all sectors of the country.

Utilities Aruba invites experienced and qualified developers to express their interest and capacity to:

1. Design, construct, install, own, operate and maintain the Wind Farm, installed at the designated site on the island of Aruba.
2. Carry out the sale and purchase of energy to the Utility Aruba Group, made available by such sources during a supply period of up to 15 years.

Registration
